

scout IoT/GPS

SCOOTER DEALER TRACKING SYSTEM

FEATURES

- Utilizes GPS/Satellite tracking and cellular reporting to the cloud, with vibration sensors and accelerometers.
- Scooter owners & parents receive anti-theft alerts, zone alerts & GPS tracking through the app.
- Scooter dealer can track every scooter sold, wherever it's located.
- Dealer can send owners mileage-based texts about maintenance and special offers.
- Dealer can send owners location-based texts for local scooters with promotional offers
- Reports can be generated of scooter usage and location by city, franchisee, region or corporate.
- Reports on from 10 to 10,000+ scooters, with ability to sort based on activity and location.
- Easily create geo-fenced zones to alert if a scooter or group of scooters are within a particular area.

1

Each scooter sold has a Scout GPS transmitter fitted & wired into battery power

2

Scooter owners & parents use the app for anti-theft alerts, zone alerts & other features

3

Dealer sends owners mileage-based texts about maintenance & location-based promotional offers

BENEFITS

- Anti-theft/Anti-tampering protection for scooter owners and parents.
- Movement/motion alerts for theft and tampering detection.
- Scooter owners can track location and movement 24/7.
- Dealer maintains communication with owners via text and app.
- Dealer can send mileage-based or location-based texts about maintenance or promotional offers.
- Dealer can generate reports on location of all sold scooters.

EQUIPMENT

- Scout IoT/GPS Tracker-Transponder
- Cat M1/LTE Mobile Internet Connectivity
- Precision GPS Location Tracking
- Accelerometer for movement and impact alerts.
- FOTA-capable so updates and enhanced features can be automatically added to devices in the field.

SECURITY & BACKING

- TCP/IP-TLS security & JWT encryption for reliable and secure data.
- MQTT running on Google IoT Cloud for redundant cloud-based data storage.
- All Scout equipment comes with extended replacement warranties.
